

Descriptive fits for observer JB, unfolded

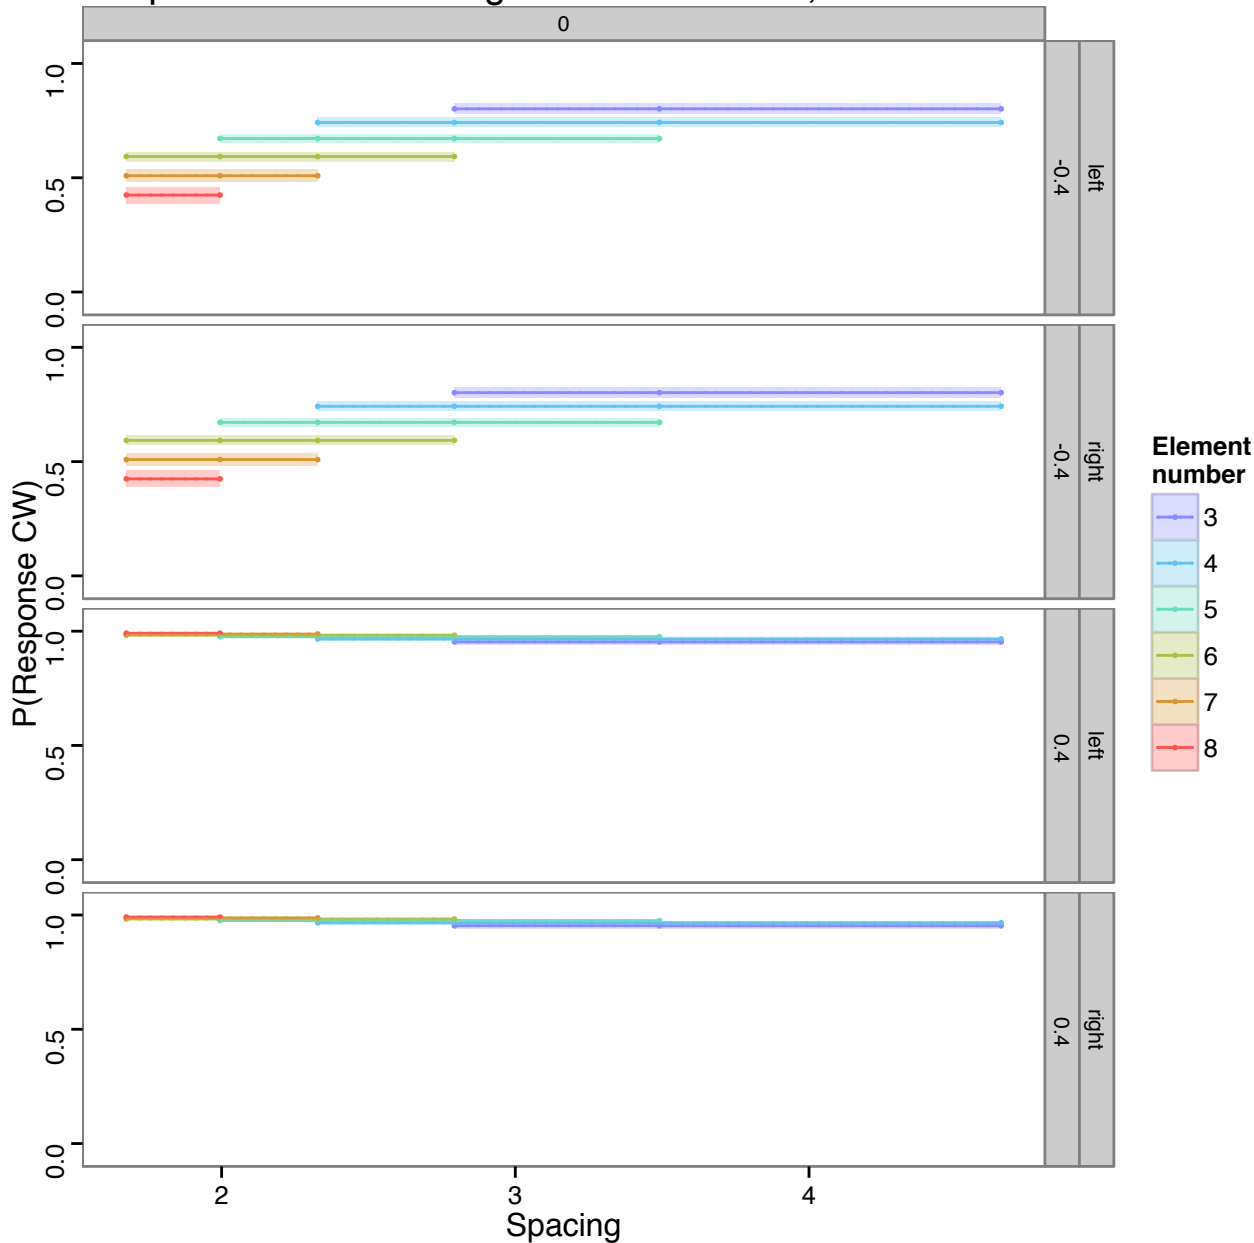

Displacement model + global content sum, observer JB

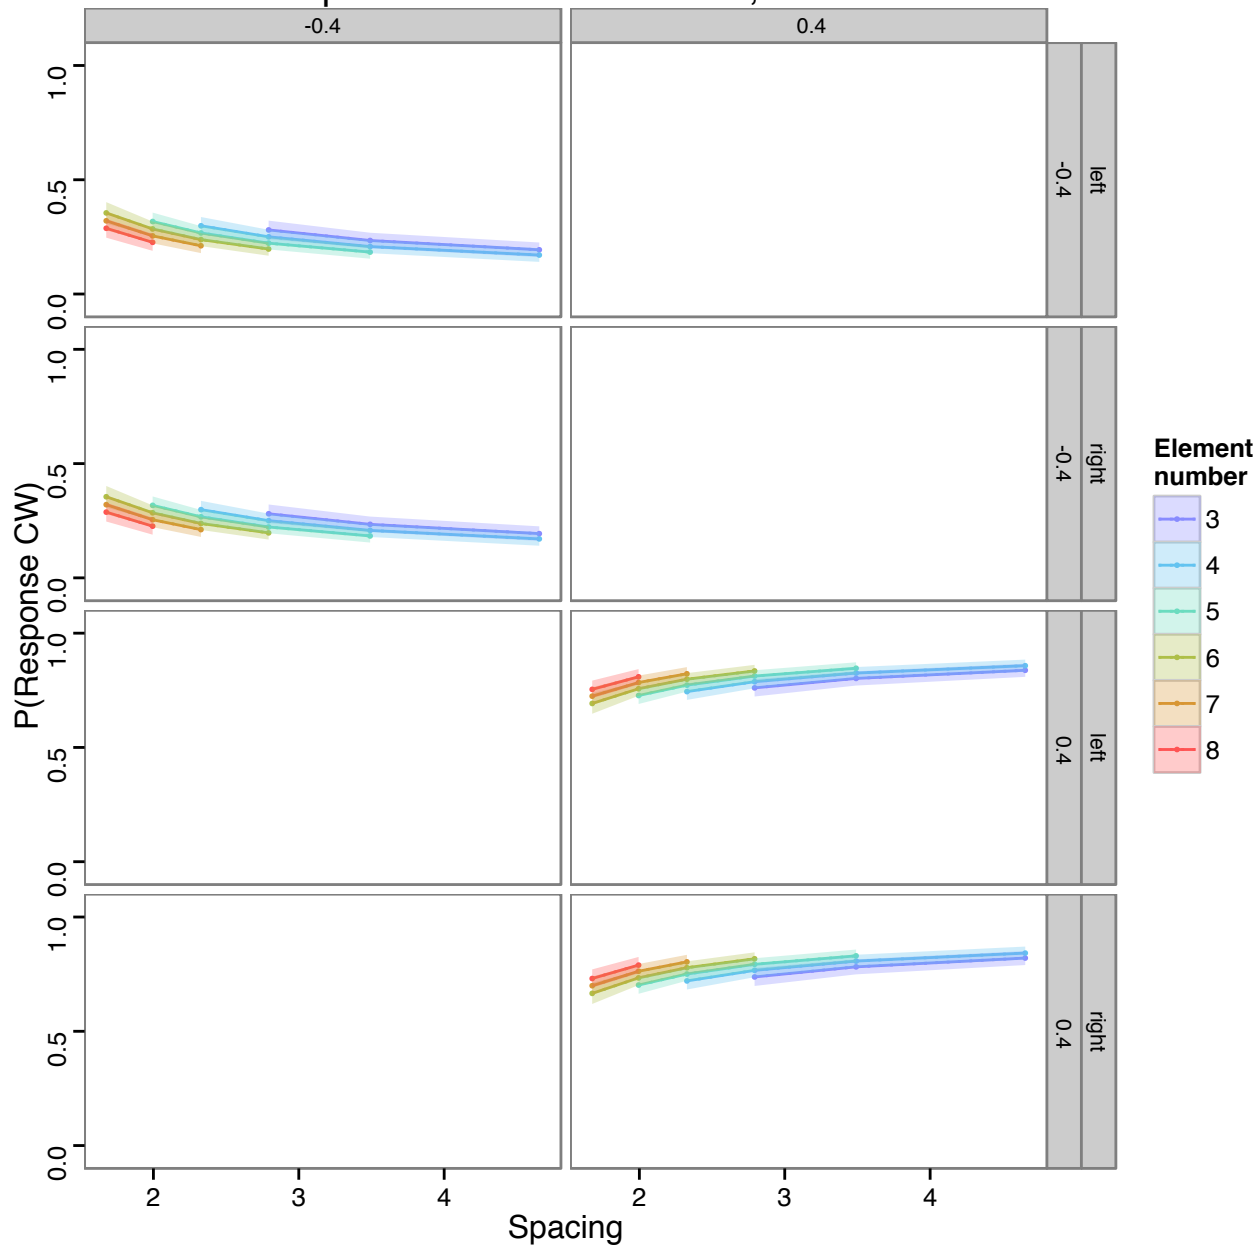

Descriptive fits for observer JE, unfolded

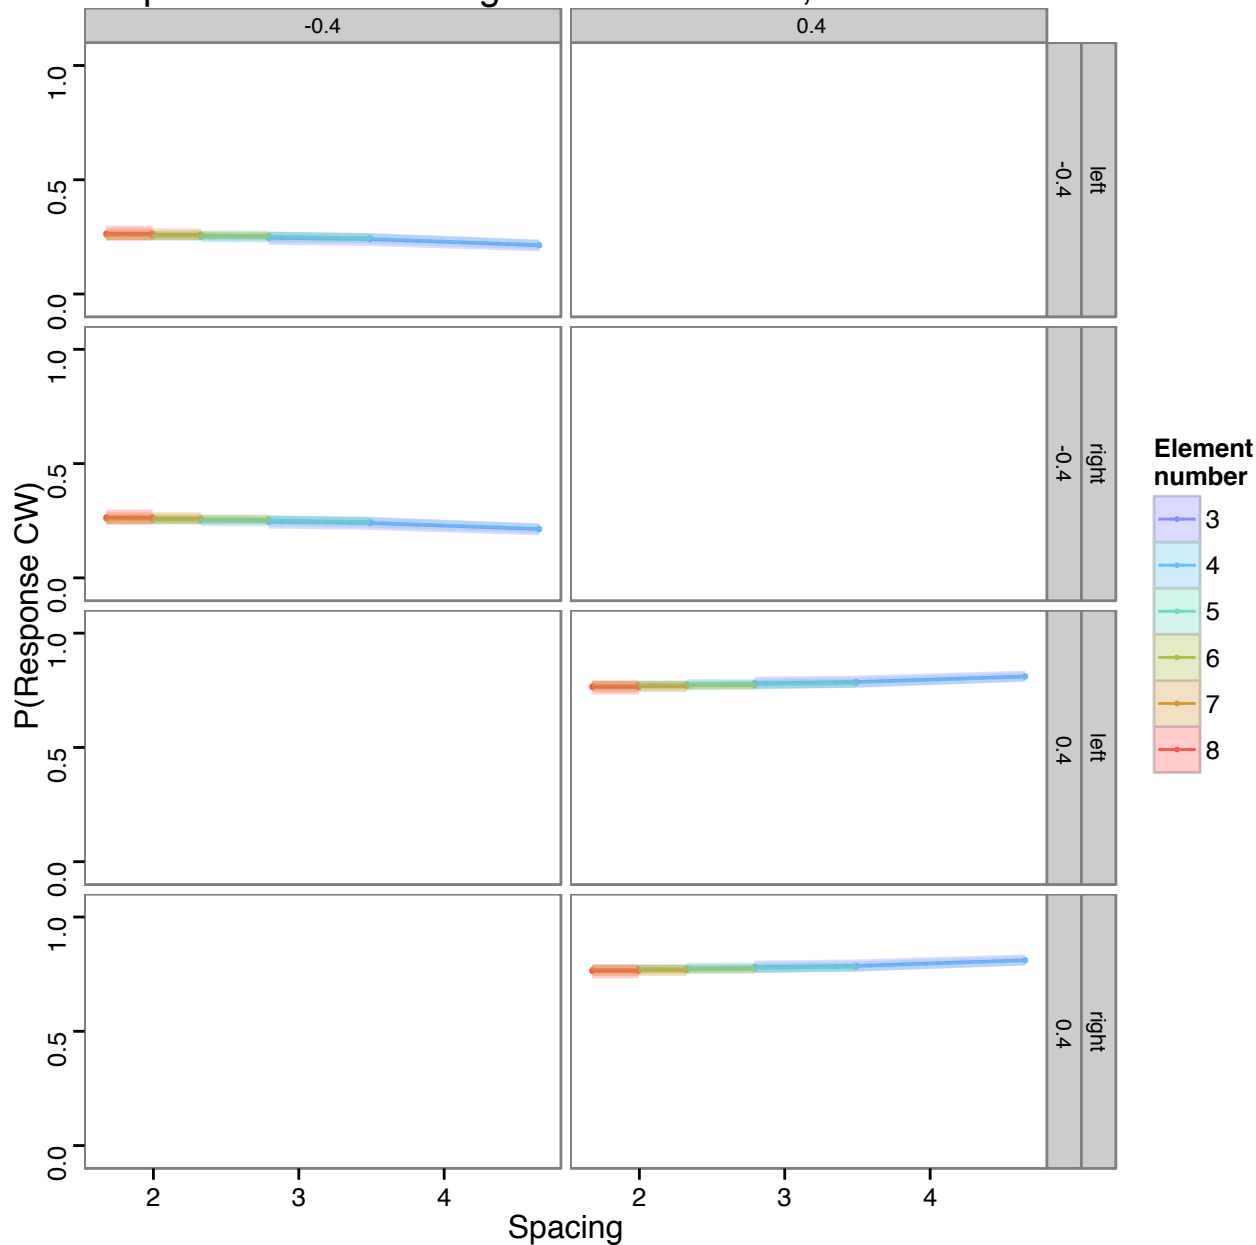

Displacement model + global content sum, observer JE

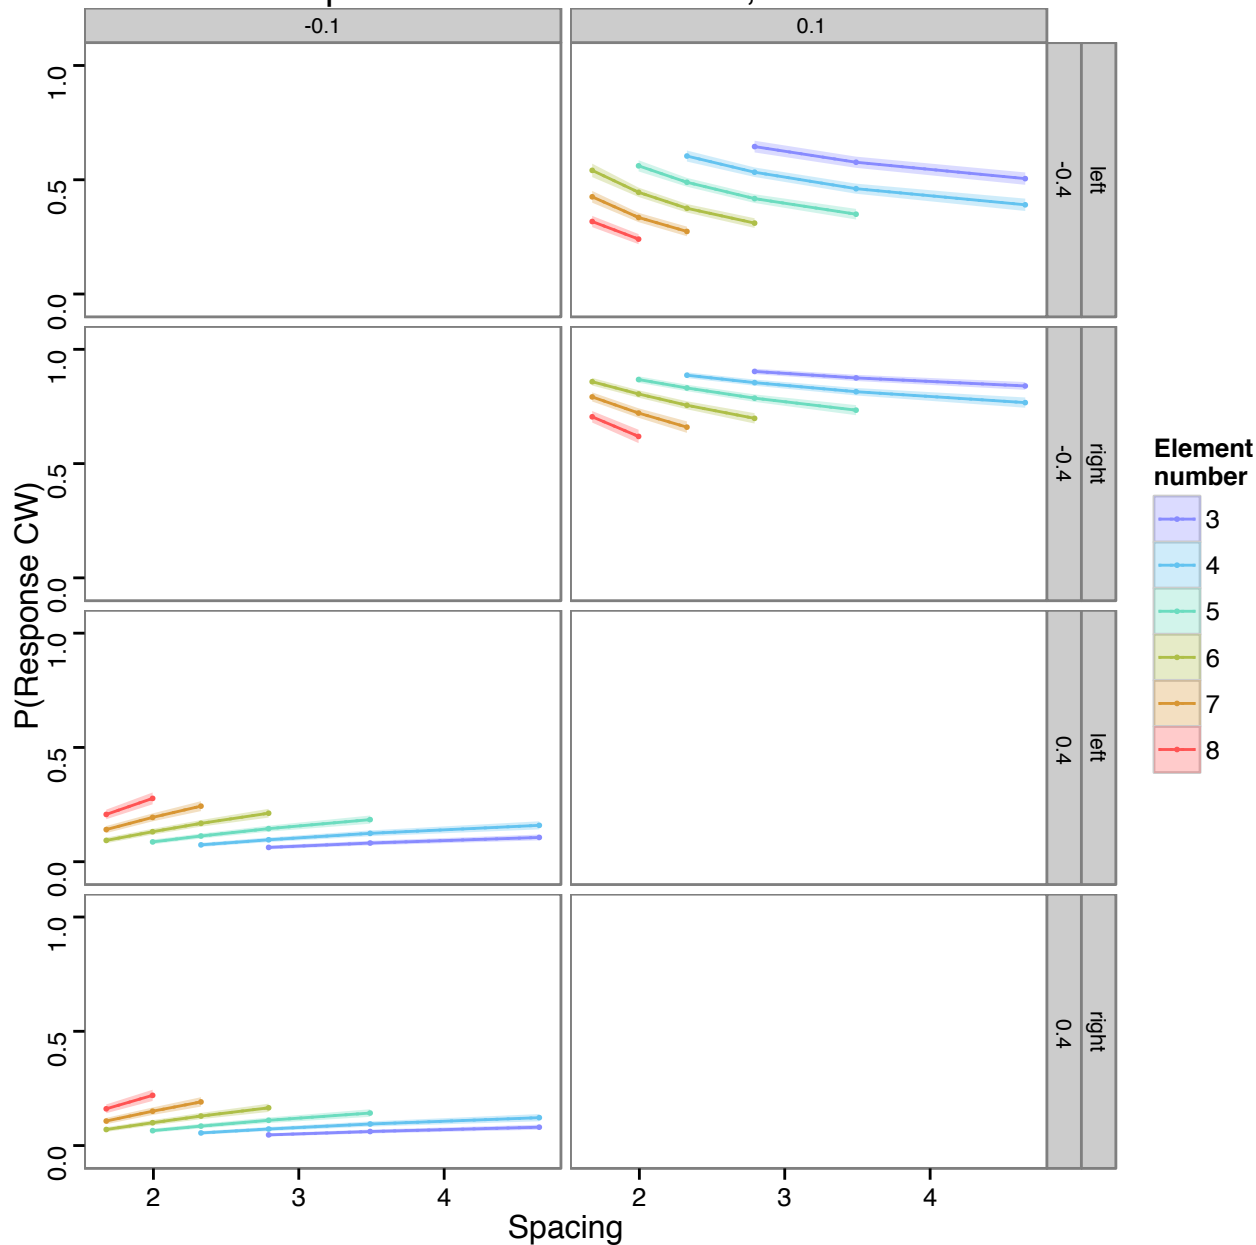

Descriptive fits for observer MC, unfolded

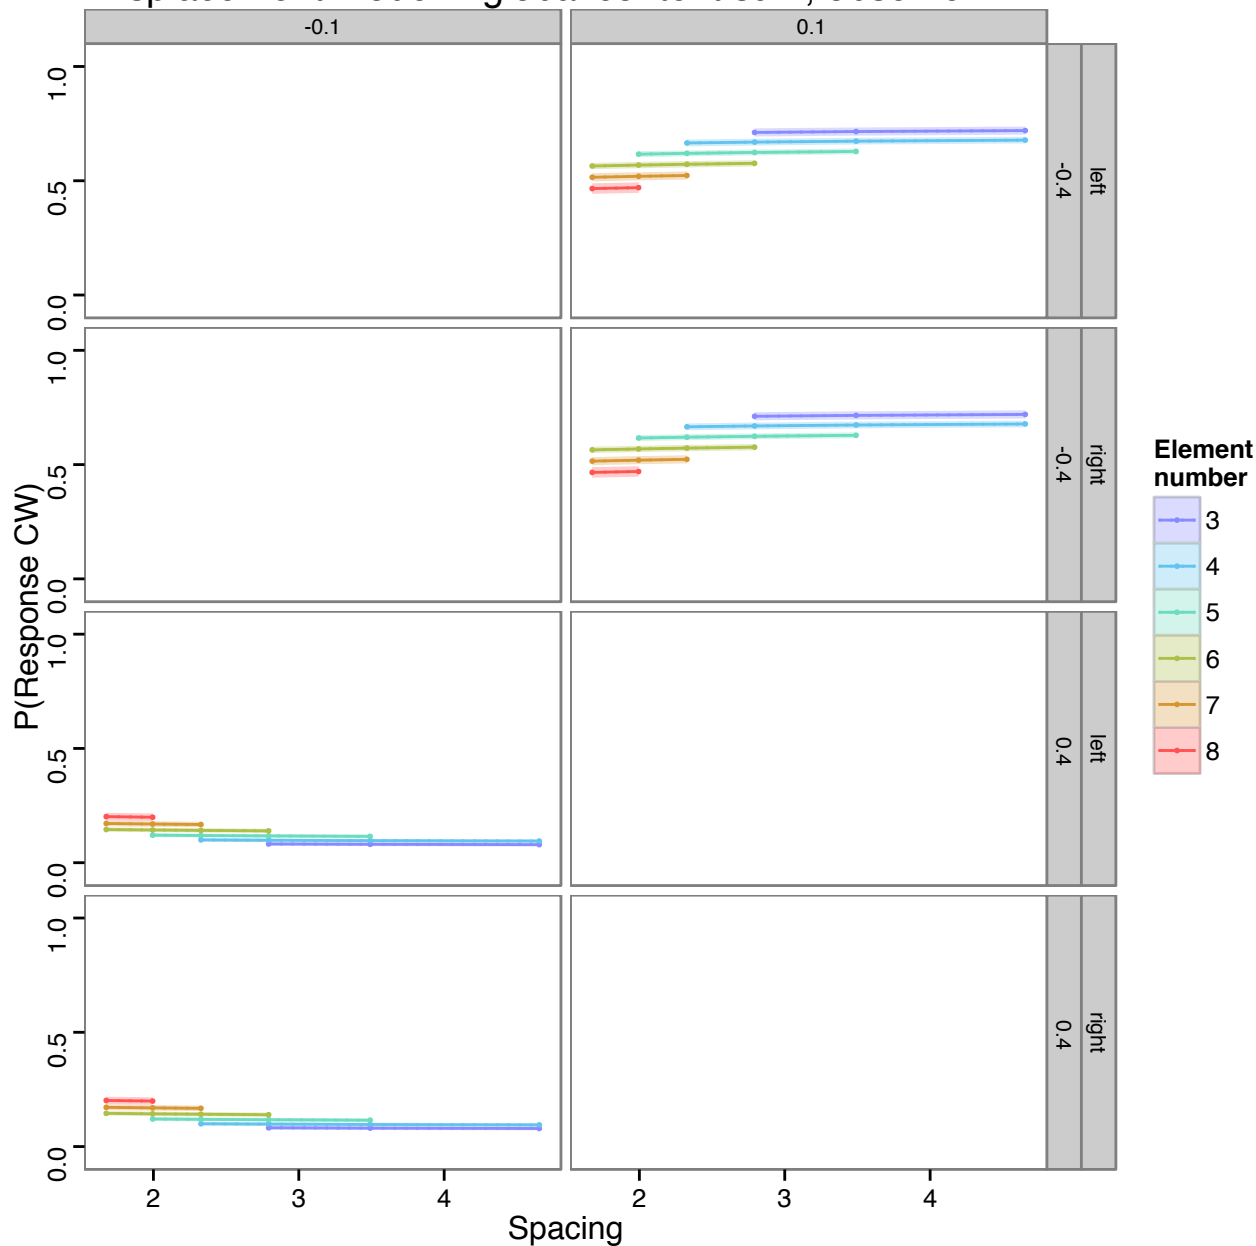

Displacement model + global content sum, observer MC

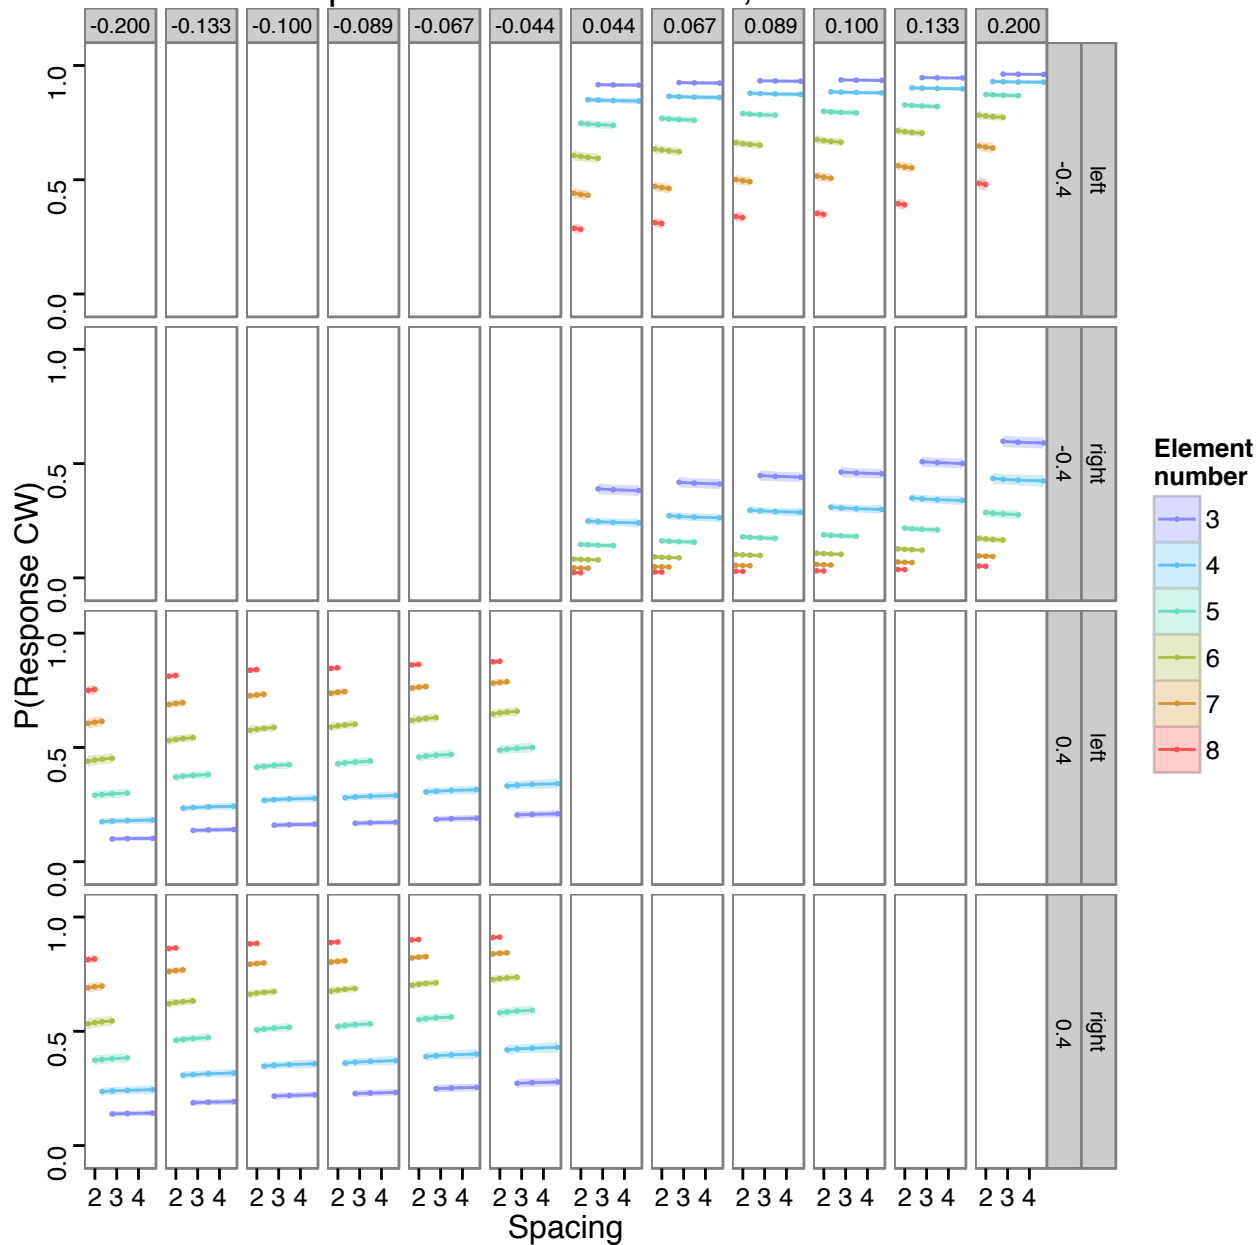

Descriptive fits for observer ML, unfolded

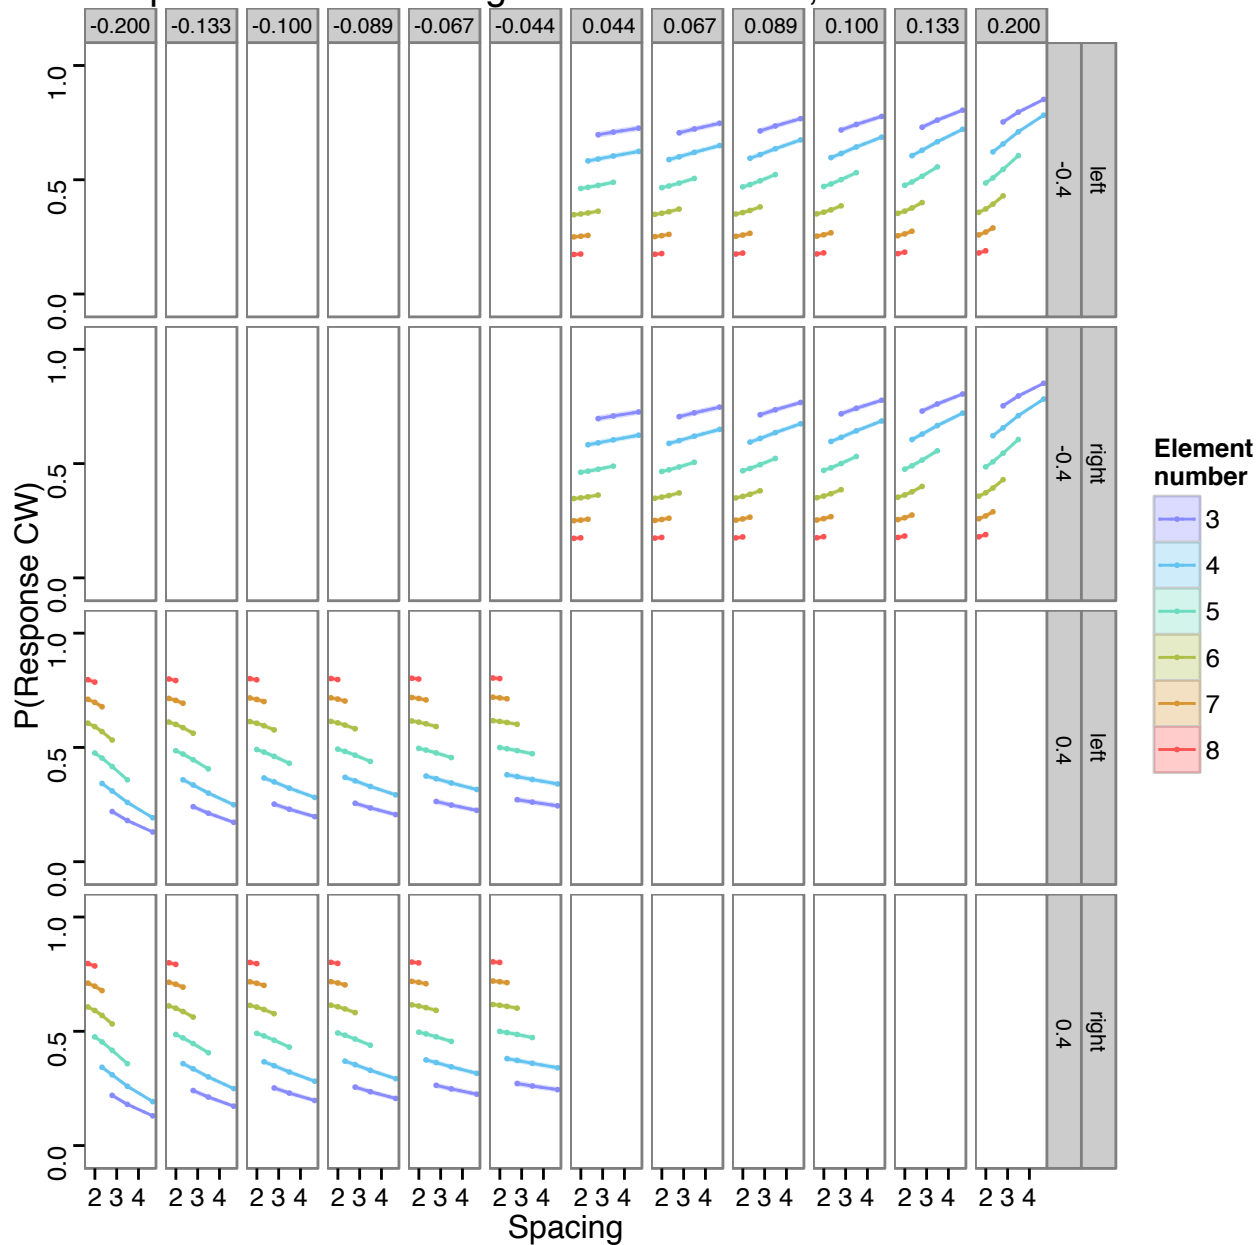

Displacement model + global content sum, observer ML

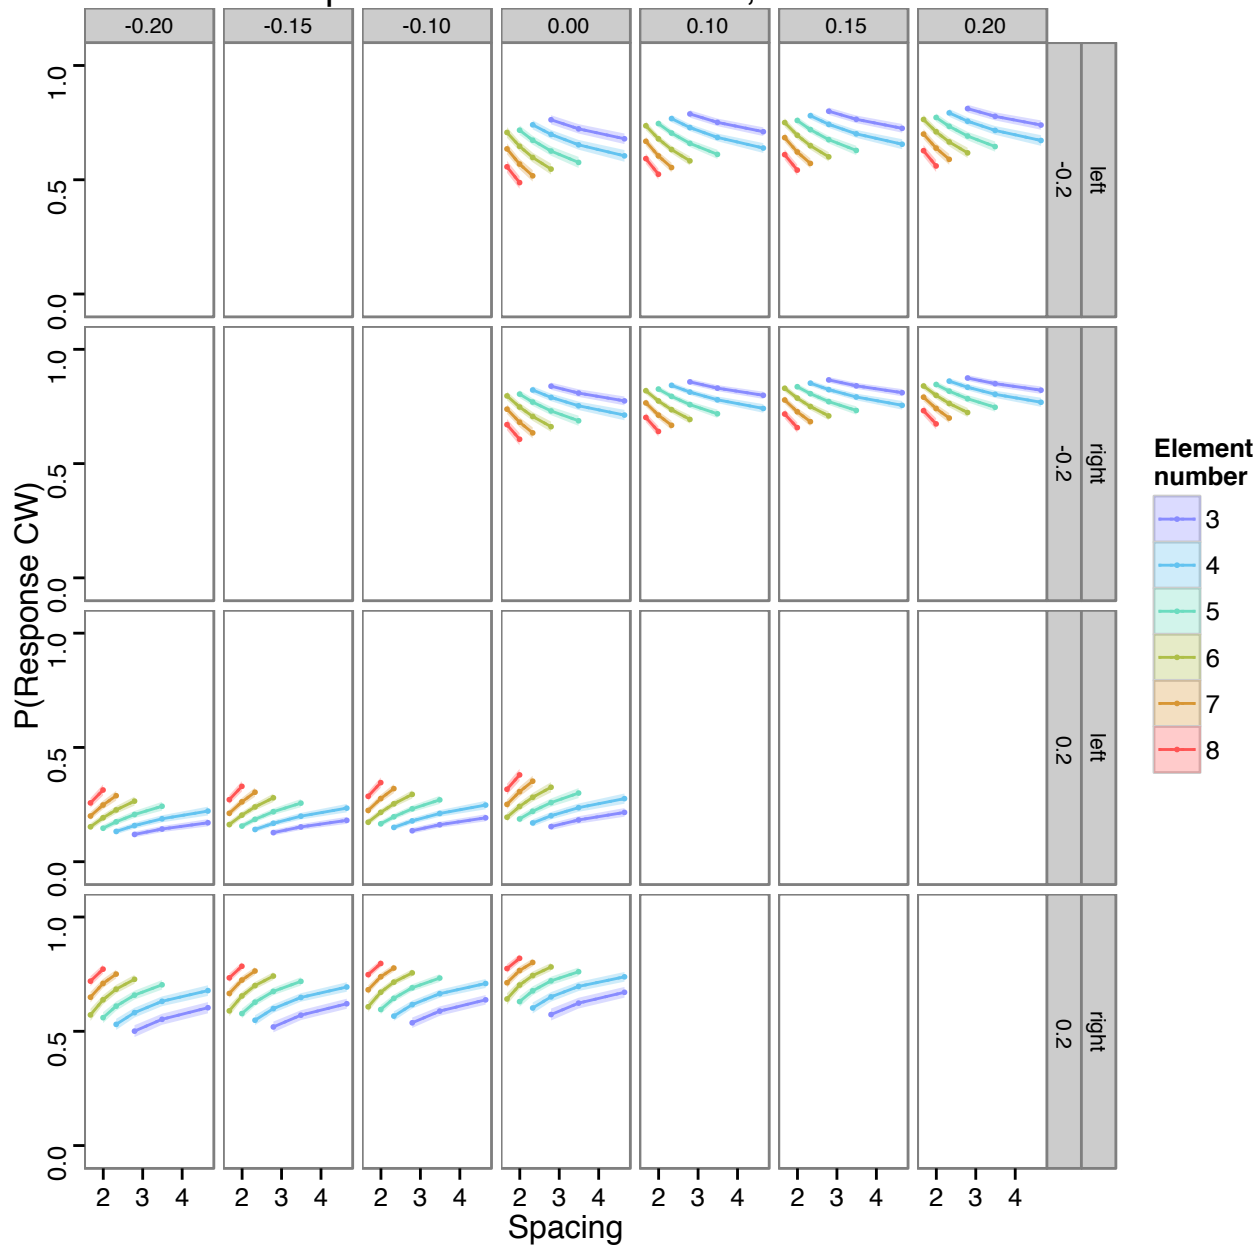

Descriptive fits for observer NJ, unfolded

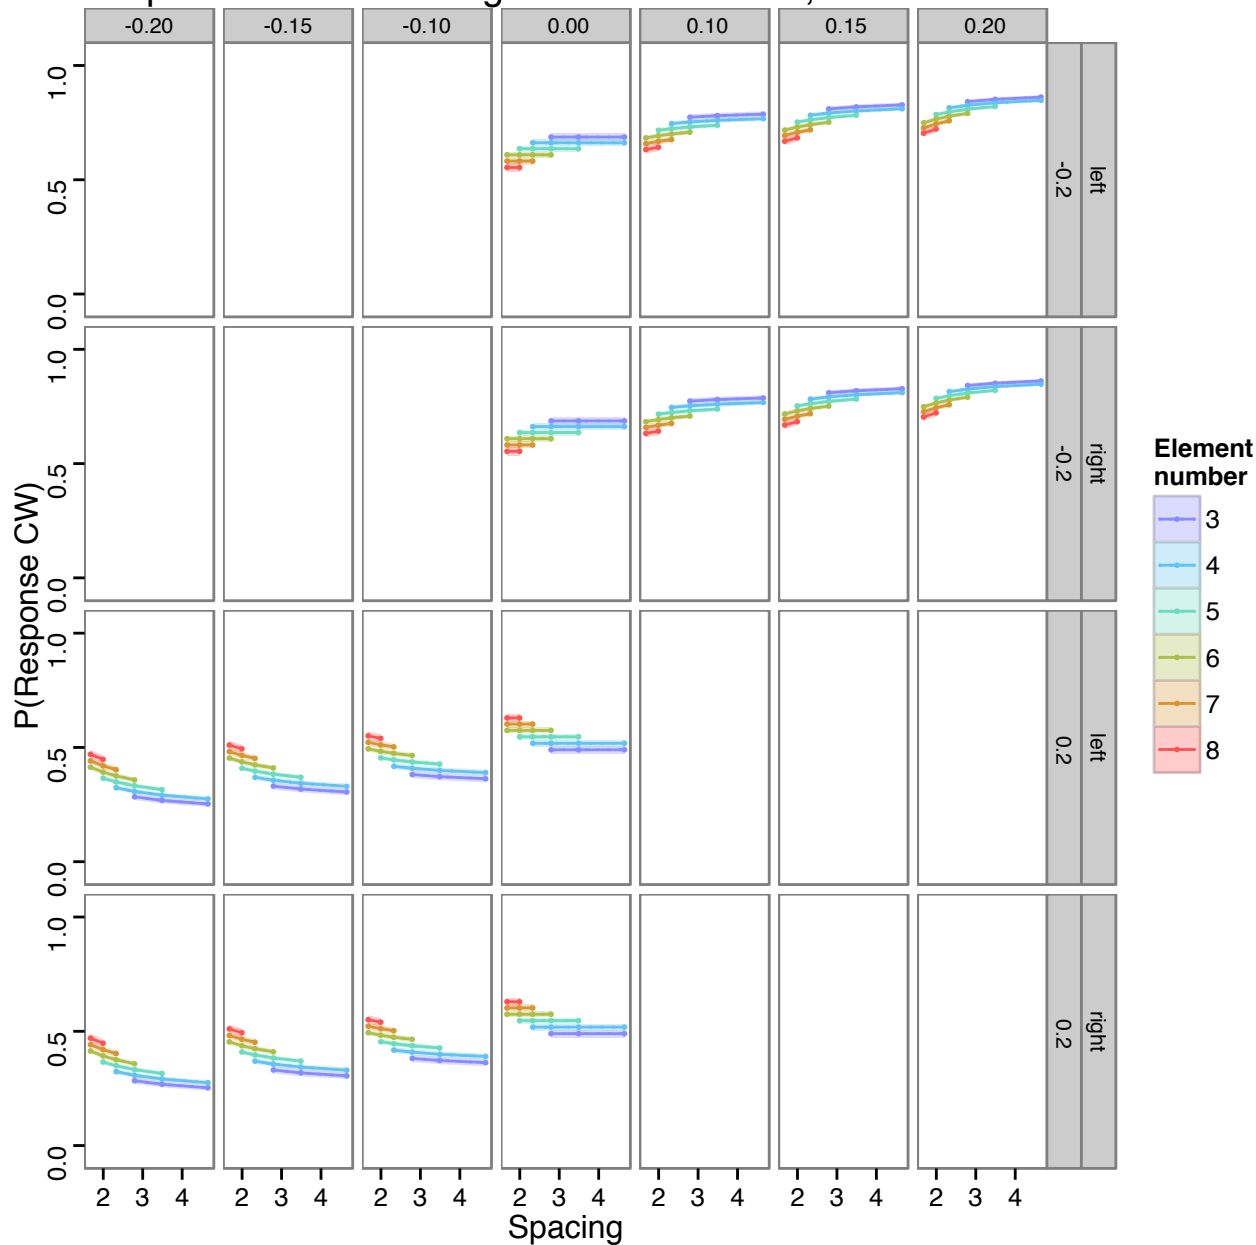

Displacement model + global content sum, observer NJ

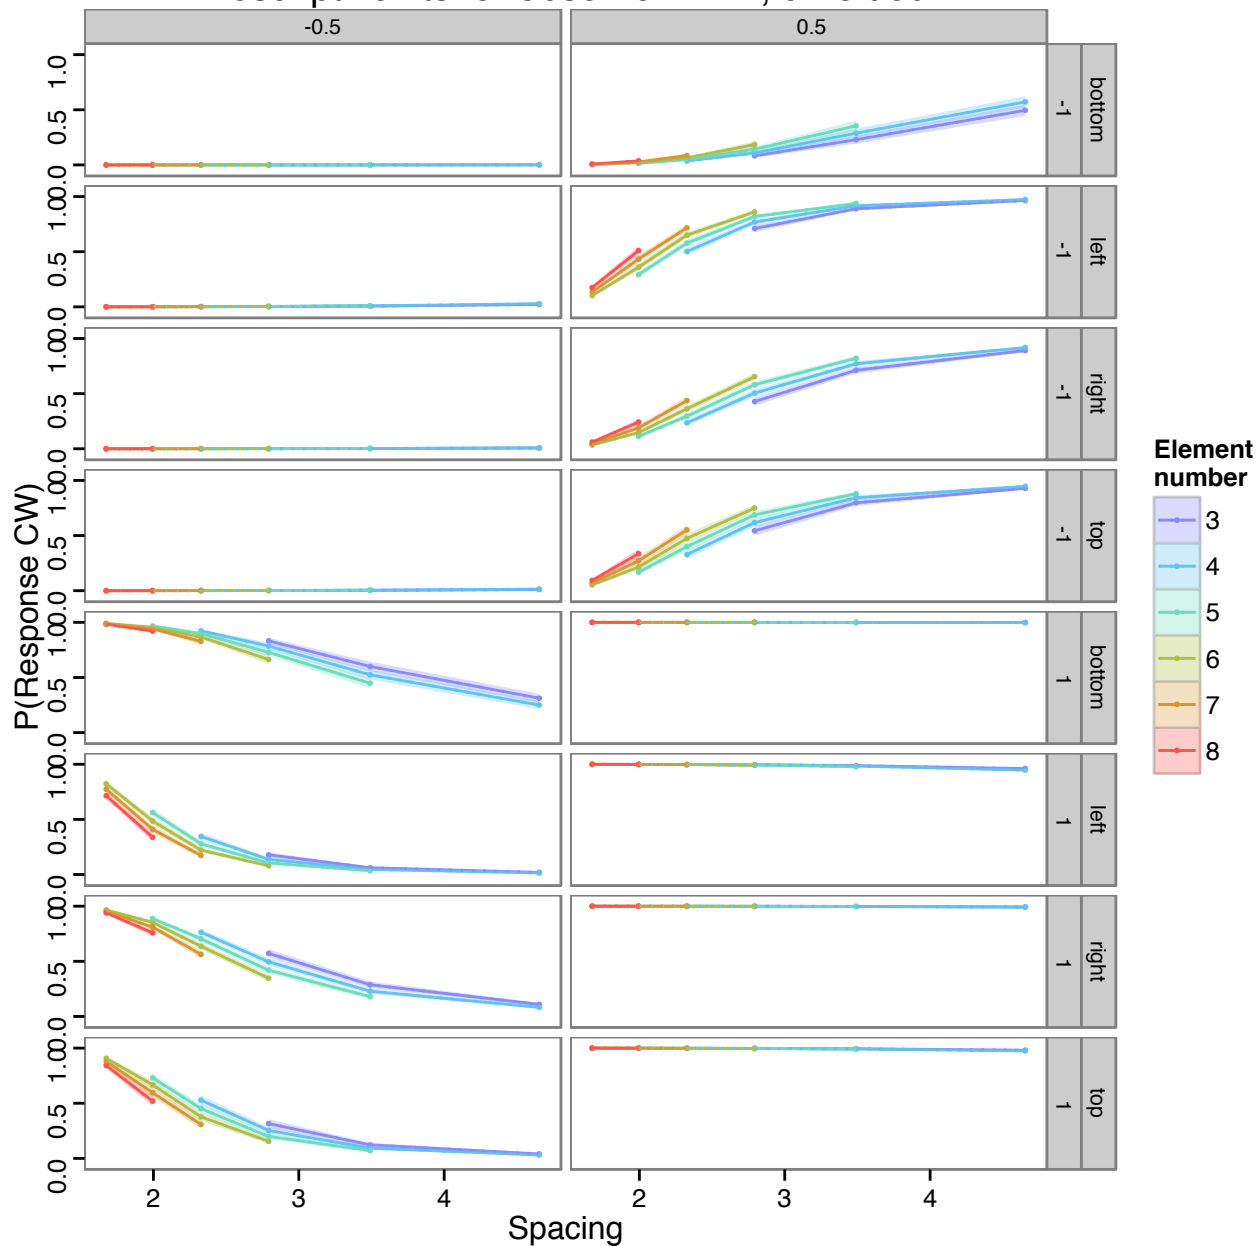

Descriptive fits for observer NS, unfolded

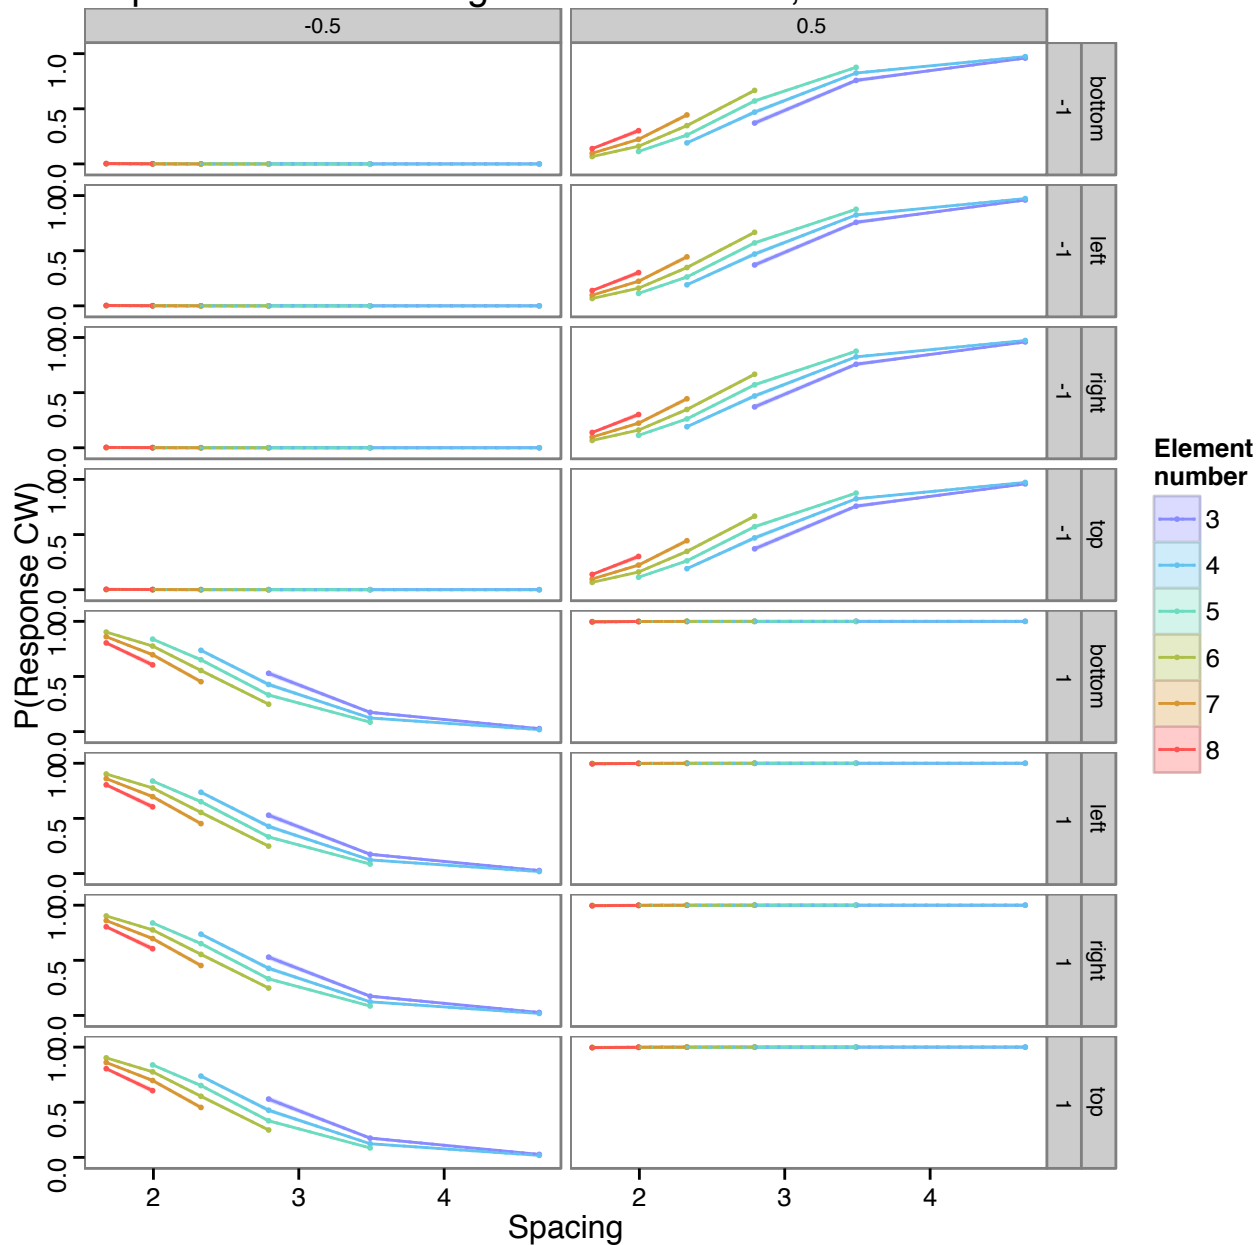

Displacement model + global content sum, observer NS

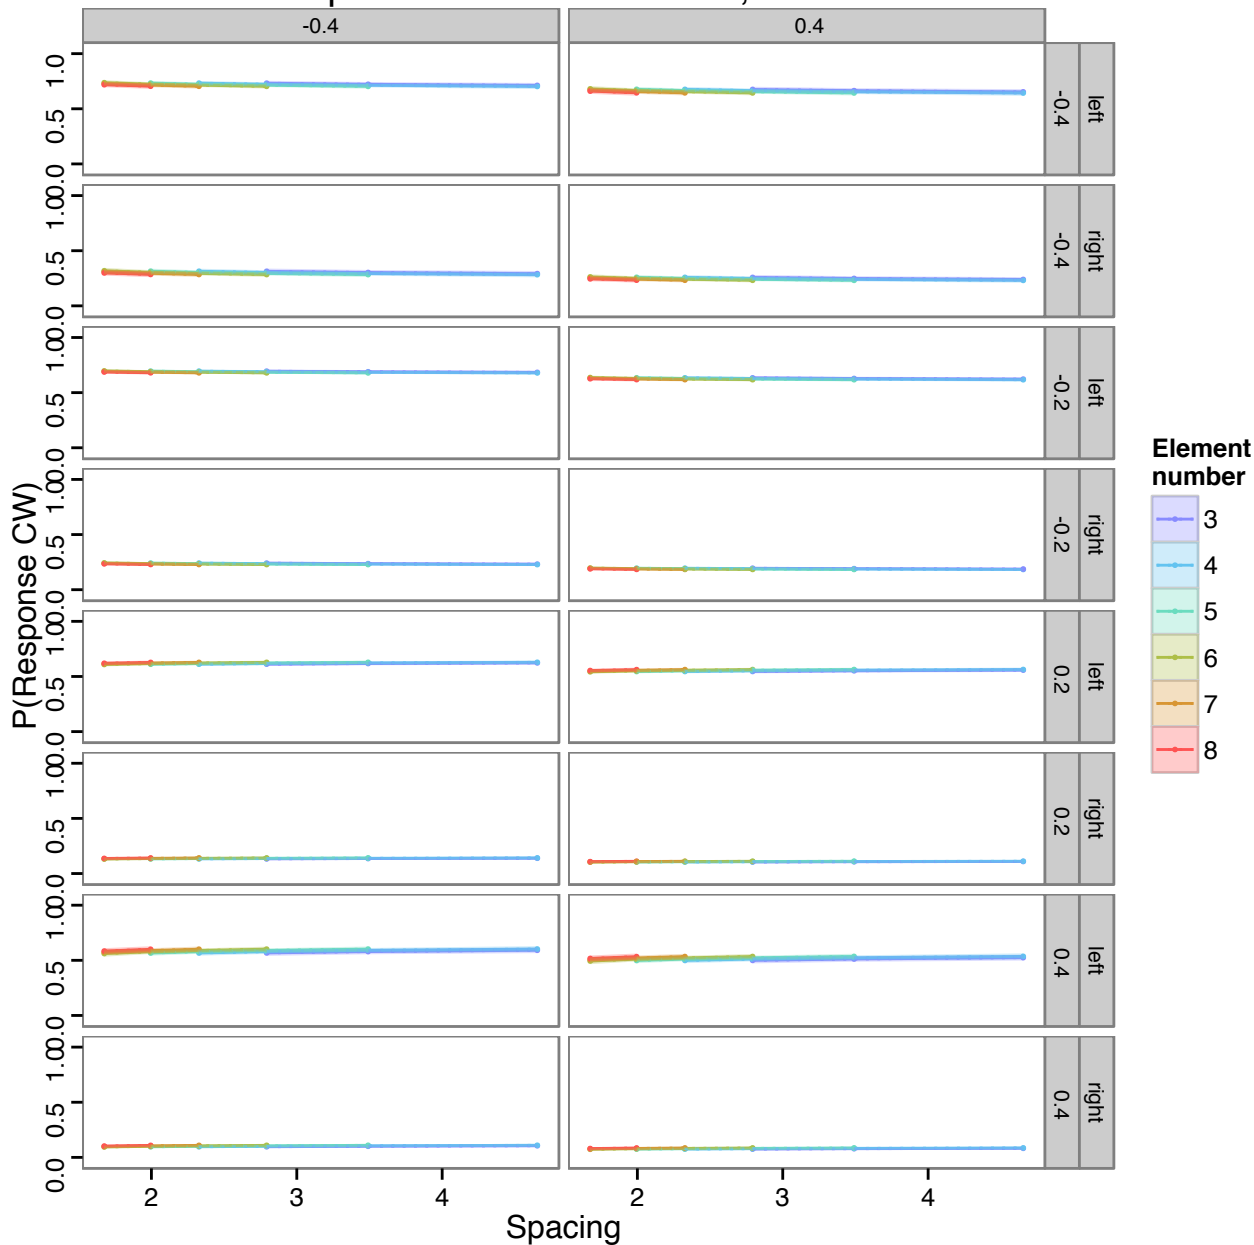

Descriptive fits for observer PBM, unfolded

Displacement model + global content sum, observer PBM

Descriptive fits for observer TL, unfolded

Displacement model + global content sum, observer TL
